QUESTION OF WILL

Claims arise as to the construction
to be placed upon the will of Mrs.
Bertram Paupi Bishop and legal pro-
cedure has been instituted to settle
them. A bill of complaint was filed
in the circuit court yesterday morning
by the trustees of the Bishop Estate
asking the summoning of Attorney
General Lindsay to advise. The
claims over which differences have
arisen is clause thirteen of the will
which provides for the support and
education of Hawaiian orphans of full
or partial aboriginal blood.

Clause thirteen states that the
trustees are to give full scholarships
mark and lodgings to children who
come under the description of orphans
or children of indigent parents. The
clause preceding provides for the con-
struction and maintenance of the two
schools at Ralini which are known
as the Kamehameha Schools, but
there is no further allusion stating
that the scholarships are to be
given in these schools.

400 BAGS OF MAIL

With her passenger accommoda-
tions nearly all taken, the Matson
liner Wilhelmina, Captain Johnson,
arrived off port early this morning and
came alongside of her wharf shortly
before eight o'clock.

Glad weather was reported the en-
tire voyage from the coast, the popular
ship making the best speed she
has made during the entire trip. On ac-
count of making runs over 400 miles
a day it was necessary to slow down
yesterday, otherwise she would have
been off port by midnight last night.

Two thousand seven hundred tons
of cargo are for Honolulu and Hilo,
not counting six automobiles which
are for mail agents.

Ninety-eight first class passengers
were brought of which sixty were
for Honolulu and thirty-eight for Hilo.

was accompanied by his son J. F.

the late George C. Beckley who died

ON TRAIL OF
SAFE THIEF

Chief of Detectives Arthur McDuffie
is hot on the trail of the man who
stole a safe from the residence of
Chung Lam early yesterday morning
while Lam and his family were sleep-
ing in the same room. A man who was
suspected as being the one that had
taken the safe and contents proved an
alibi when questioned yesterday after-
noon by the chief.

McDuffie is of the opinion that the
man who took the safe is a member
of an organized gang of thieves who
have been committing a lot of robberies
in the last few weeks, and before
the thief is out of hope to have a
number of the gang in a place where
they will be unable to get away.

The person or persons who were
responsible for the theft of the safe
and jewelry must have known that
it was kept in the room that it was
stolen from, as the window was un-
locked by the robber in gaining an
entrance.

POI LUNCH IN
SAN FRANCISCO

SAN FRANCISCO, July 6.—A Ha-
waiian "lunch" was given at the City
and County hospital last evening by
George K. Oliman, an attendant there
and a native of Honolulu.

A lot of "poi" shipped from the is-
lands, roasted kukui nuts and Hawa-
ian dried fish were a part of the feast,
which was attended by the local Ha-
waiian colony.

(Special Cable to The Star.)

SAN PEDRO, July 12.—Seven hours after the start of the trans-
pacific yacht race from this port to Honolulu, the yacht Hawaii of
the Hawaii Yacht Club, which led for the first mile on Sunday, with
the Sweetheart second, became becalmed in the lee of Catalina Island.

The Sweetheart then went to the lead and got five miles ahead, the
Mollison trailing behind.

BIG TOW CRIPPLED

From the present outlook it is almost certain that the collier and
auxiliary cruiser Prometheus will be unable to get away much before
two weeks owing to the condition of her engines. Piston trouble de-
veloped on the way down that will require repairing before the big
ship will be able to take the cruiser Chattanooga in tow.

The Prometheus has never been at sea before for any length of
time, the trip which ended yesterday causing a good deal of trouble
to the chief engineer and his assistants. Both officers and crew of the
Cleveland and Chattanooga are very thankful that they will be able to
stay here a few days longer, as every one seems to enjoy being in a
port that they say is the finest in the world.

No further coaling will be necessary on the Cleveland with the ex-
ception of a few tons, which will be put aboard in no time or two.
